In the morning start is open 10-11, finish to 13. In the afternoon start 15-16, finish open to 18!

14.04. – start is open 18-19.30, finish to 20.30. (Maps are given to participants in start.)

Organizers and course-setters notes:

Due to the long winter and cold temperatures there are still partly snow and ice on the road and tracks in terrains. During the snow-melting period terrains could be also wet and muddy.

As a training camp take place close to the urban areas there are quite a lot tracks and pathes. Be careful when riding on open roads and streets – traffic is not very active, but still open!

All the terrains are well used and mapped for various MTBO events (mostly Tuesday afternoon mass-events) in last years, but due to the just ended winter, organizers and course-setters have not been able to visit and check all tracks and pathes for mapping. Therefore not all fallen trees, minor changes etc are marked to the map as in high-level competitions.

In the morning trainings (Camp Cup) there is SIAC time-keeping (+Livelox), in the afternoon trainings there is a Livelox route-recording (with own phones) and only CP-flags in the forest.

Good luck, have fun and enjoy Your trainings! ☺
