Terrain: Racing in urbanized quarters and parks.

Overall standings: Sum of stage times (all 3 stages). If a participant loses more than 4 minutes on a stage, his time for that stage is calculated as the winner's time + 4min (example: winner's time 10.05 + 4min = 14.05). A competitor who has not registered for one or more of the stages will not be included in the overall standings. If a competitor has been registered, but for some reason does not participate or does not score a result, then his time on the stage is: winner's time + 4min. If participants are showing the exact same overall time, the better classified will be the fastest one on 3rd stage final (photo finish, if necessary).

Prize fund is 800€. Prize giving ceremony starts at 12:45.

Force majeure: In case of a checkpoint stolen, intentionally removed and misplaced, just continue the race - your result will be considered as valid.
